

Setting Up NUROUM AW10

Register your device to get an extra warranty period

www.nuroom.com

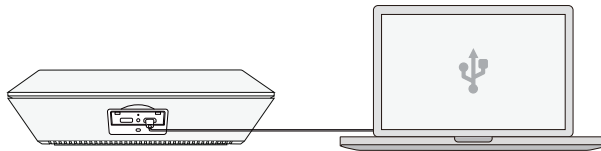

01 Turn on the speakerphone:

Press and hold the Power On/Off button for 2 seconds until the LED indicator lights white.

02 If you want to establish a USB connection:

Connect your speakerphone to your computer (or other compatible devices) with the included USB cable. USB indicator turns from white to blue, indicating that the USB connection is established successfully.

03 Otherwise, if you want to establish a Bluetooth connection:

Enable Bluetooth on your mobile device (or other compatible devices), and select Nuroom AW10 from the list of available Bluetooth devices. Bluetooth indicator stops flashing and lights blue, indicating that the Bluetooth connection is established successfully.
